Mr. Gregg Lukenbill
President
Sky King, Inc.
3600 Power Inn Road
Sacramento, California 95826

MAY 30 2000

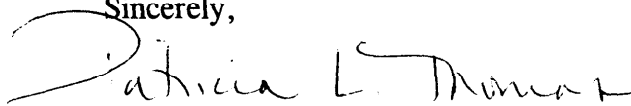

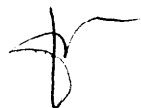

Dear Mr. Lukenbill:

On May 19, 2000, Sky King, Inc., requested additional relief from the dormancy provisions of 14 CFR 204.7 of our rules, so that its certificate authority (*see* Orders 98-3-26 and 98-4-14, issued March 26, 1998) would not be revoked. This request for an additional six months in which to commence operations is, according to Sky King, required due to delays it has experienced in completing the FAA certification process.

We have reviewed Sky King's request, and, based on the information provided by Sky King and the FAA, have decided to grant this request. Therefore, we will grant Sky King until November 19, 2000, to complete the terms for receipt of effective certificate authority and commencement of actual flight operations under its certificates.

If you have any questions regarding this letter, please feel free to call Janet Davis of my staff at (202)-366-9721.

Sincerely,

Randall D. Bennett
Acting Director
Office of Aviation Analysis
