Re: Notice of Delta Air Lines Regarding China Frequency Utilization and Intent to Rely on Route Integration Authority.

Dear Mr. Hedberg:

Delta intends to rely on its blanket route integration authority granted by Order 2010-12-24 to institute new daily service between Atlanta (ATL) and Shanghai-Pudong (PVG), China, effective July 20, 2018.

To establish this new service Delta will fly 6x weekly Atlanta-Shanghai flights using 1 unrestricted, gateway-flexible China frequency awarded by Order 94-6-3 and 5 unrestricted, gateway-flexible China frequencies awarded by Order 95-2-30.¹ Separately, Delta has additionally applied to transfer 1 restricted China frequency awarded in Order 2001-1-6 in order to operate a daily service pattern.² All mentioned frequencies are currently used to fly the Tokyo (Narita)-Shanghai route.

Sincerely,

Christopher Walker

CC: Brett Kruger
